

South African International Renewable Energy Conference

4 - 7 October 2015
Cape Town International Convention Centre
South Africa

The International Renewable Energy Conference, a global platform for the advancement of renewable energy, takes place in Cape Town, South Africa, in October 2015.

Convened by the Renewable Energy Policy Network for the 21st Century (REN21), the South African International Renewable Energy Conference (SAIREC) is the sixth in a series of conferences. Previous hosts include: Bonn, Germany (2004), Beijing, China (2005), Washington, USA (2008), Delhi, India (2010) and Abu Dhabi, UAE (2013).

Be part of this important global platform

Comprising a conference, an exhibition and a series of side events, SAIREC 2015 will bring together renewable energy leaders in government, the private sector and civil society from around the world.

The focus is on removing barriers to the rollout of renewable energy globally, promoting development and innovation in this sector and highlighting the role that renewable energy can play in terms of accelerating development in general.

Take advantage of the African opportunity

Hosted by the South African Department of Energy together with the South African National Energy Development Institute, under the theme RE-Energising Africa, this is the first IREC conference to be hosted on African soil.

SAIREC 2015 provides Africa with a unique opportunity to showcase its nascent renewable energy industry and gain experience from those countries at the forefront of renewable energy deployment.

Register today

SAIREC 2015 is open to all and there is no registration fee, however, you do need to register to gain access to the venue. For more information and to register visit: www.sairec.org.za
